

Let Us Teach Your Puppy What He Needs to Know

Your puppy will love learning these obedience commands. Practical and simple to remember, they will make it possible for you to explore the world and enjoy each other's company. When you're indoors, you'll find it easier to keep the house clean and comfortable if your dog understands what to do and where to be.

1 **SIT.** Used to say please.

8 **LET'S GO.** I'd like to take you for a walk.

2 **DOWN.** Put your chest on the ground. Stop moving and chill.

9 **WAIT.** Don't cross the threshold, or stay put until you hear another cue.

3 **GO TO BED.** Find your mat, lie down, and stay. Great for eating out, quiet time, and company.

10 **LEAVE IT.** Don't touch your nose to the object in front of us.

4 **STAY.** Do not move until you hear the release word.

11 **LOAD.** Jump into the vehicle so we can go have fun.

5 **COME.** Stop what you are doing and approach me so that I may touch your collar.

12 **GO IN.** Lie down under the chair or table so you are not in the way.

6 **OUT.** Get out of a room or other area.

13 **KENNEL.** Go into your crate and wait there.

7 **MOVE.** You are in the way, so go somewhere else.

14 **TOUCH.** Extend your nose to the hand or object.

Your puppy will love our safe, practical, rewards-based approach. Grounded in an understanding of how dogs learn and what motivates them to excel at life, our methods are kind but effective.
