

## Let Us Teach Your Puppy What He Needs to Know

Your puppy will love learning these obedience commands. Practical and simple to remember, they will make it possible for you to explore the world and enjoy each other's company. When you're indoors, you'll find it easier to keep the house clean and comfortable if your dog understands what to do and where to be.

|---|---|
| 1 <b>WATCH.</b> Make eye contact with me and wait for more instructions.                | 6 <b>LET'S GO.</b> I'd like to take you for a walk.   |
| 2 <b>SIT.</b> Used to say please.   | 7 <b>WAIT.</b> Don't cross the threshold, or stay put until you hear another cue.                     |
| 3 <b>DOWN.</b> Put your chest on the ground. Stop moving and chill.                     | 8 <b>LEAVE IT.</b> Don't touch your nose to the object in front of us.                                |
| 4 <b>STAY.</b> Do not move until you hear the release word.                             | 9 <b>GO TO BED.</b> Find your mat, lie down, and stay. Great for eating out, quiet time, and company. |
| 5 <b>COME.</b> Stop what you are doing and approach me so that I may touch your collar. | 10 <b>KENNEL.</b> Go into your crate and wait there.  |

Your puppy will love our safe, practical, rewards-based approach. Grounded in an understanding of how dogs learn and what motivates them to excel at life, our methods are kind but effective.
